## RESPONSE TO AMENDMENT

1. Claims 1-9 and 28-47 are pending in the application, claims 10-27 have been cancelled.
2. Amendments to the claims, filed on March 15, 2006, have been entered in the above-identified application.

## REJECTIONS

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### *Claim Rejections - 35 USC § 112*

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claim <sup>4, 13</sup>~~4~~ rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In the instant case amended claim 4 contain(s) the limitation "greater than 0." The examiner is unable to find support for this end point in the specification, therefore this limitation is considered new matter.

The new matter should be deleted.

Art Unit: 1772

6. Claims 1-9 and 28-47 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "less rigid" in claims 1, 44 and 45 is a relative term which renders the claim indefinite. The term "less rigid" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. It unclear the degree or rigidity.

#### ***ANSWERS TO APPLICANT'S ARGUMENTS***

7. Applicant's arguments in the response filed March 15, 2006 regarding the previous rejections of record have been considered but are moot since the rejections have been withdrawn.
